

Position: Marine Construction Superintendent

Location: Chestnut Ridge, NY

Availability: Immediate opening for full-time position

Company Background

JT Cleary, Inc. is a leading marine construction and dredging company in the Greater New York City area. Founded in 1995, the company established a reputation for excellence and has grown steadily, developing loyal customers throughout the Mid-Atlantic and Northeast. Currently, JT Cleary is expanding its operations, adding more and larger projects to its existing backlog of contracts, as well as growing its dredging division. Employees at JT Cleary find excellent opportunities to take on roles of increasing responsibility and to chart a career path within the company. The corporate office is in Chestnut Ridge, NY, in the metro New York City area, with easy access to the tri-state area. Visit www.jtcleary.com.

Job Description

The Marine Superintendent reports to the Director of Operations and is the on-site, direct supervisor of construction field crews. The Superintendent is also responsible for equipment, logistics, report writing, and client liaison activities in connection with construction projects. Occasional travel is involved. Additional duties include:

- Assist with cost estimating
- Manage logistics for crews, crane barges, and tugboats
- Development of hazard analysis for projects
- Review of safe work practices with labor force prior to project commencement
- Holding daily safety meetings with crew
- Documentation of daily safety meetings
- Accident investigation and reporting
- Performing routine safety inspections

Qualifications

- Must have 5+ years' experience in marine and/or heavy civil construction supervisory/oversight positions.
- Strong interpersonal, leadership, and verbal/written communication skills are required.
- A degree in Engineering or a related discipline is preferred.

Travel: Local

Relocation: Commensurate with experience and qualifications

JT Cleary is an equal opportunity employer.
